

# Contactless

## Mobile Phone Enabled ATM

---

# Consumers are changing the way they access their money

- 83% of POS transactions in Australia are Tap and Go
- Globally the fast-growing new ATM transactions are cardless

## Consumers now expect options to access their cash

- Generation leaving the house without their wallet
- Wanting the ability to access their accounts using their mobile phone

NCR is proud to be the first  
to market with our interoperable  
Contactless Mobile Phone Enabled ATM
