

Stage 2 COVID-19 restrictions

Friday 12 June 2020

Good afternoon

Today's stage 2 update includes important information on:

- ID Scanning at your venue
- Compliance checks for venues operating under a COVID Safe Industry Plan or COVID Safe Checklist

ID Scanning at your venue

Update on when you need to scan patrons

The Office of Liquor and Gaming Regulation (OLGR) has assessed and consulted with the Queensland Police Service (QPS) and industry on the current risk levels in Queensland's safe night precincts (SNPs).

Given the reduced number of patrons and restricted operating conditions for venues, scanning requirements have been adjusted, during stage 2 only, so that regulated licensees who sell alcohol after midnight on Friday, Saturday, Sunday and the day before a Public Holiday, or past 1am on Monday to Thursday nights must:

Approved operators & QikID Customers

There are [two approved operators](#) with approved ID scanning equipment in Queensland, these are:

- Scantek Pty Ltd and
- IDU Technologies Ltd.

Former approved operator QikID is in liquidation and as a result, no longer provides ID scanning services.

This means QIKID customers, who had not yet engaged a new approved operator, are now required to use manual ban lists provided by the QPS.

This is a temporary arrangement and it is expected all QikID customers engage a new approved operator no later than 10 July 2020.

Compliance

Here's a tip on the main things OLGR compliance officers will be checking for if they inspect your venue during Stage 2.

Stage 2 COVID-19 restrictions

Regardless of whether you're operating under a plan or checklist, officers will also check (if required) that:

- You're following [responsible service of alcohol](#) practices (RSA). This includes monitoring for unduly intoxicated and disorderly patrons, minors, safety and that all practices and promotions are responsible
- [Crowd controllers](#) are in place
- Your [CCTV](#) is operating
- ID scanning is occurring or banning lists are checked.
